How to Change the Interface Language in Your Quiz

ProProfs lets you change the quiz interface language from English, Spanish and 70+ other international languages.

Selecting a specific interface language for a quiz will display the navigation button text in your preferred language.

For example, if the content of your quiz is in Spanish, select 'Spanish' as your interface language to localize quiz takers' experience.

Here's an example of "**Spanish**" selected as the interface language. As you can see, the navigation and button text has auto-translated to Spanish.

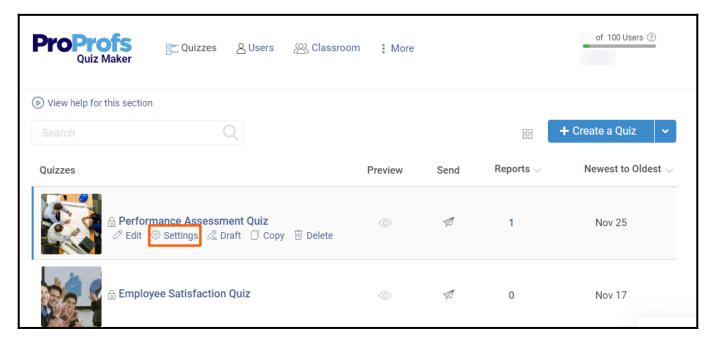

Changing the quiz interface language helps:

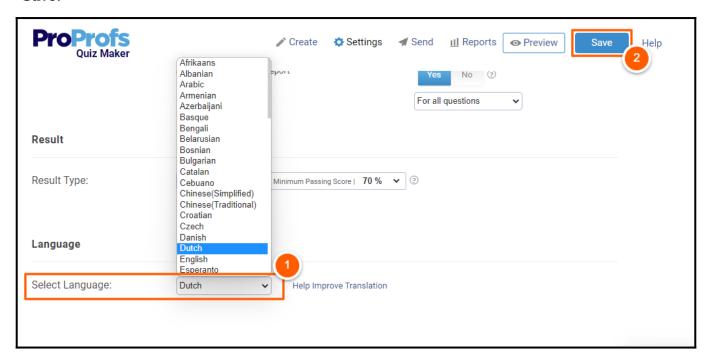

- Reach your global audience in a language they understand
- Localize the quiz taker's experience
- **Improve** engagement & grow lead generation

How to Change the Interface Language in Your Quiz

Step 1: In your ProProfs Quiz Maker dashboard, navigate to quiz settings.

Step 2: Navigate to "**Language**," select your preferred language from the dropdown list and click "**Save.**"

The participant will see the interface in their selected language when taking the quiz.

Quiz Maker FAQ ProProfs Quiz Maker FAQs	General
Pregunta 6 / 50	
Le acaban de asignar una tarea de alta prioridad. El plazo de entrega es corto y necesita comprometerse para cumplir con ciertas metas. Cuando se cumple el plazo, usted	
Entrega el trabajo como estaba indicado.	
Entrega el trabajo, pero comunica que puede haber errores debido al corto plazo.	
Entrega parte del trabajo y explica que el corto plazo fue completamente irrealista.	
Siguiente pregunta	

That is all about changing the interface language in ProProfs Quiz Maker.
