

How to Integrate MailChimp With Quiz Maker

ProProfs integration with MailChimp helps you capture the learner's information (name, email, etc.) and automatically add it as a lead in MailChimp. After the integration is completed, you can start populating the MailChimp mailing list by automatically importing details of the learners who take your quiz on ProProfs.

Or continue to learn step-by-step.

Here's how you can setup Mailchimp integration:

Step 1: To start importing the details of the learners every time they take a quiz, start by selecting the **quiz you want to use for lead generation** and navigate to "Settings."

Step 2: Navigate to the "Security" tab and locate "Tracking Configuration." Enable information to capture, you can also ask your own questions to capture learner's info.
