

How to Create a Comprehension Test

ProProfs Quiz Maker allows you to create a comprehension test to check the comprehensive skills of the quiz takers. You can link multiple questions to a single passage or essay in this question type. To make your quiz more interactive, you can choose different question types.

Follow the step-by-step guide below to learn how to create a comprehension test.

Here's what a comprehension test will look like to the learners:

Question 1 / 3 33 %

Read the following passage and answer the questions:

Twitter is a social media platform that allows users to post short messages, called tweets. Tweets can be up to 280 characters long, and they can include text, images, videos, and links. Twitter is a popular platform for news, entertainment, and social interaction.

The 4 P's of marketing are product, price, place, and promotion. Product refers to the actual good or service that is being marketed, while price refers to the amount of money that is charged for the product. Place refers to the distribution channels that are used to sell the product, and promotion refers to the activities that are used to communicate the product to potential customers.

Click-through refers to the number of times that a user clicks on a link. Click-through rate (CTR) is the percentage of users who click on a link after seeing it. CTR is an important metric in website analytics because it measures how effective a link is at driving traffic to a website.

What are the 4 P's of marketing?

☐ Product, Price, Place, and Promotion.
