

# How to Allow Learners to Jump to Any Question on a Quiz

This functionality allows learners to skip questions or navigate to any question of their choice and later attempt it at their convenience.

[View example quiz with navigation between questions enabled.](#)

Implementing this functionality is simple. Here's how this can be done:

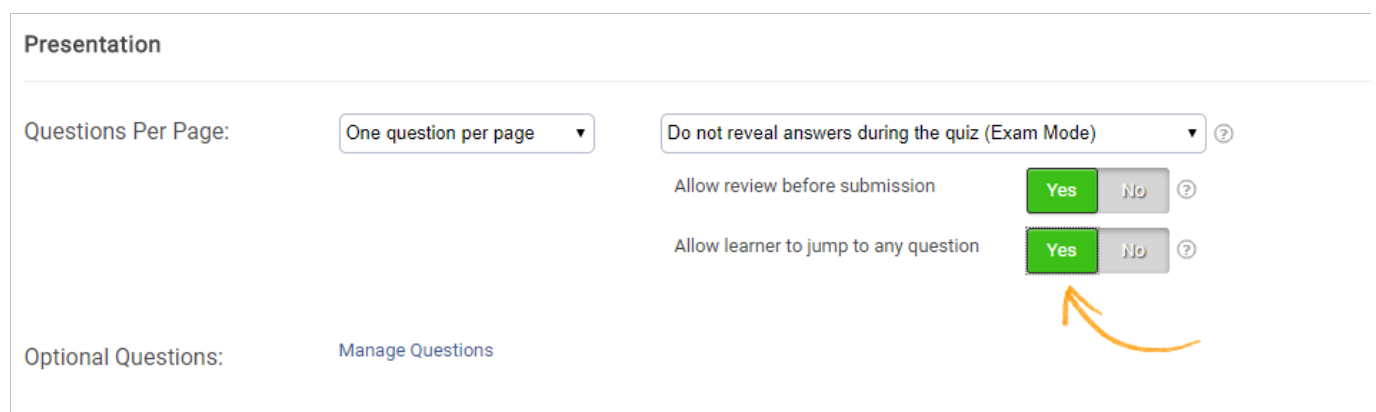

Step 1: Click on the 'Settings' tab of the quiz to add this functionality.

The screenshot shows the ProProfs Quiz Maker dashboard. At the top, there's a navigation bar with 'Quizzes', 'Users', and 'Instructors' tabs, along with a 'Recent Activity' section and a 'Create a Quiz' button. Below this is a list of quizzes. The first quiz is 'Radio communications', which has a 'Settings' tab highlighted by an orange arrow. Other quizzes listed include 'General Awareness', 'Corporate Finance', and 'Corporate Management'.

TITLE	PREVIEW	SEND	REPORTS	LAST MODIFIED
Radio communications <a href="#">Edit</a>   <a href="#">Settings</a>   <a href="#">Draft</a>   <a href="#">Copy</a>   <a href="#">Delete</a>			0	Dec 26, 2017
General Awareness			0	Dec 26, 2017
Corporate Finance			0	Nov 9, 2017
Corporate Management			1	Oct 16, 2017

Step 2: (i) In "General" settings, Select "Yes" on "Allow learners to jump to any question" as displayed below.

The screenshot shows the 'Presentation' settings page. It includes options for 'Questions Per Page' (set to 'One question per page'), 'Do not reveal answers during the quiz (Exam Mode)' (set to 'Yes'), 'Allow review before submission' (set to 'Yes'), and 'Allow learner to jump to any question' (set to 'Yes'). An orange arrow points to the 'Yes' button for the 'Allow learner to jump to any question' option.

Optional Questions: [Manage Questions](#)

Step 2: (ii) If you select "Yes" on "[Allow review before submission](#)," it will allow your learners

to change answers before final submission.

### Presentation

Questions Per Page:

One question per page ▼

Do not reveal answers during the quiz (Exam Mode) ▼ ?

Allow review before submission

Yes

No ?

Allow learner to jump to any question

Yes

No ?

**Step 4:** When the learners start the quiz, they can click on the "Jump to" (>>) icon and all the questions will be displayed in a number-wise vertical menu which is known as 'Question Palette.'

The screenshot displays a quiz interface. On the left, a question titled "What are Radio Waves?" is shown with a video player titled "Electromagnetic Spectrum: Radio Waves". Below the video are four radio button options: "Electromagnetic Radiation", "Ionizing Radiation", "Alpha Particles", and "Gamma Particles". A "Next" button and a "Mark For Review" option are at the bottom. On the right, a list of 13 questions is displayed. Question 1, "What are Radio Waves?", is highlighted in grey. Questions 2 through 11 are listed below it. At the top of the question list, there are filters: "All (13)", "Unanswered (13)", "Answered (0)", and "Marked for Review (0)".

**Note:** When this setting is enabled, the branching feature will not work.

Here are some of the benefits when you **allow learners to jump to any question**:

(i) See question content without clicking on it: Your learners can preview any of the questions at their convenience without navigating to that specific question. In the below image, the quiz taker can view the content of all questions while attempting Question 5.

**(ii) Know which questions have been attempted:** The learners know which questions are attempted as marked in "Blue" color (as displayed in the below image).

**(iii) Know which questions are unanswered:** The learners will view the "Unanswered" Question. The question number will be highlighted in "Grey" color. In the below image, the quiz taker has viewed Question 2 but has not answered it.

**(iv) Know which questions have been marked for review:** The learners will be able to view the questions marked for review. The question number will be highlighted in "Orange" color. In the below image, the current quiz does not have any questions marked for review. So, the marked for review option at the top displays zero.

Question 5 / 12

42 %

How does one end a radio conversation?

☐ Copy or Roger

☐ Goodbye

☐ Done

Next

All (12)

Unanswered (9)

Answered (3)

Marked for Review (0)

1 How far should the mic be from your mouth when transmitting

2 How should you speak on the radio?

3 What information should be transmitted on the radio?

4 Sierra 4, your 10-1, means?

5 How does one end a radio conversation?

6 What is a 10-34?

7 In the phonetic alphabet, what does 'H' stand for?

8 How do you properly handle the radio?

9 How long should a radio conversation last?
