

How to Add Images and Videos to Quiz Questions & Answers

With ProProfs Quiz Maker, you can [create engaging quizzes](#) by adding media, such as images and videos, to your questions and answer options. You can even add DOC, PDF, and PPT files to the questions depending on the type of quiz you're creating.

Here's a look at a quiz question with an image added to it:

* Question 1 / 9 11 % ⌚ 9 min 51 secs

What is the definition of Market Research?

☐ The systematic and objective process of generating information to aid in making marketing decisions

☐ The system of finding the correct answers to our objectives

☐ Market Intelligence

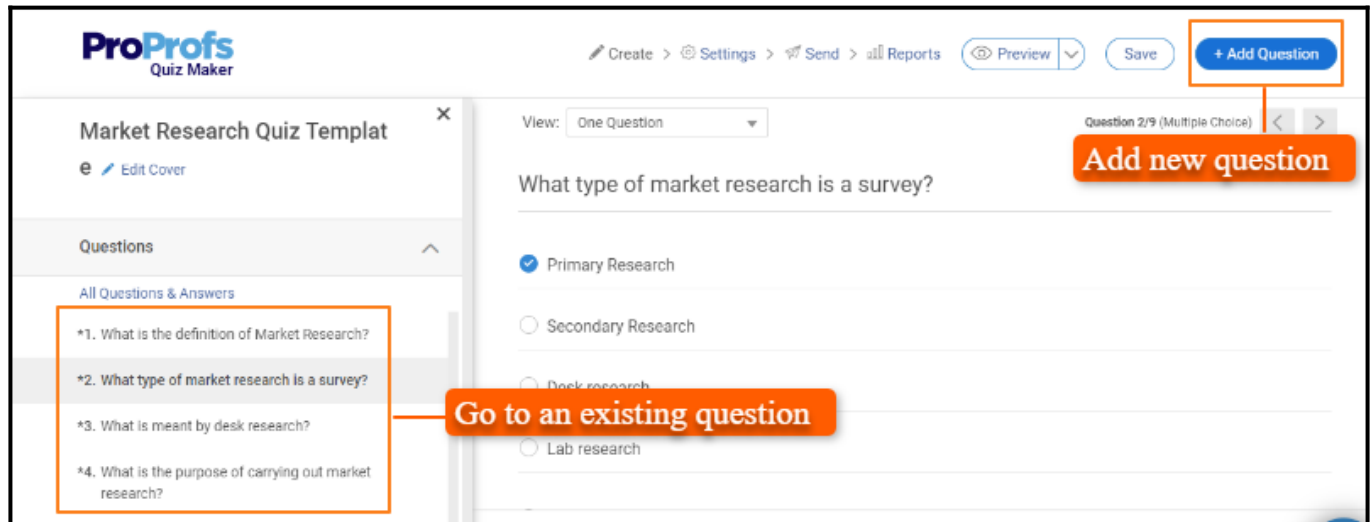

Benefits of adding images, videos, or documents to your quiz questions/answer options:

- Media-rich quizzes have more appeal and can engage learners better
- Clarify concepts, provide additional context, and make your content more engaging and accessible to a broader audience.

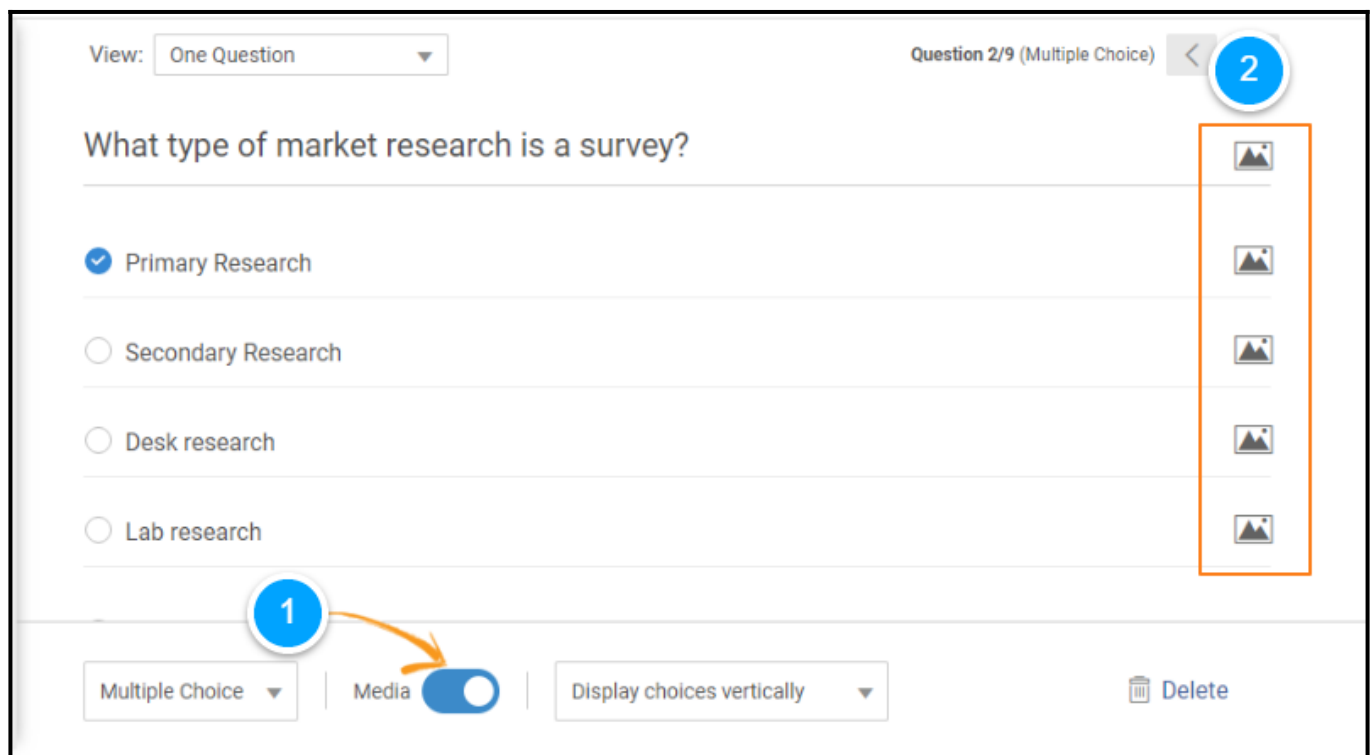

How to Add Images, Videos, Docs, PPTs, and PDF

Files to a Quiz

Step 1: In the quiz editor, go to a question or add a new one (if you're creating a quiz from scratch).

Step 2: After selecting/adding the question, enable **Media (1)**. Click the **image or video icon (2)** next to an answer option or the question statement to add an image/video.

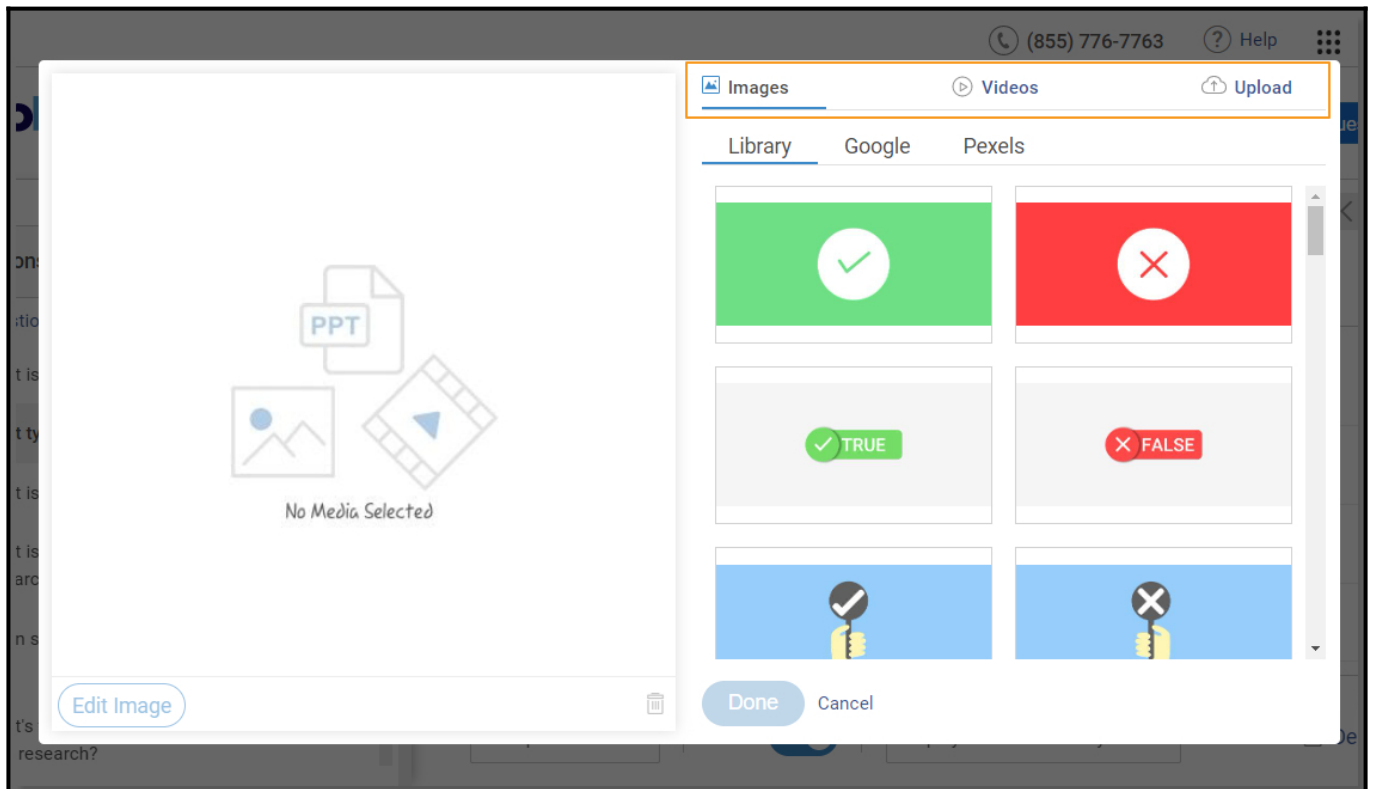

Alternatively, you can access the **User Media Library** to upload an image to the question or answers.

Step 3: Here, you can do one of the following depending on your requirement:

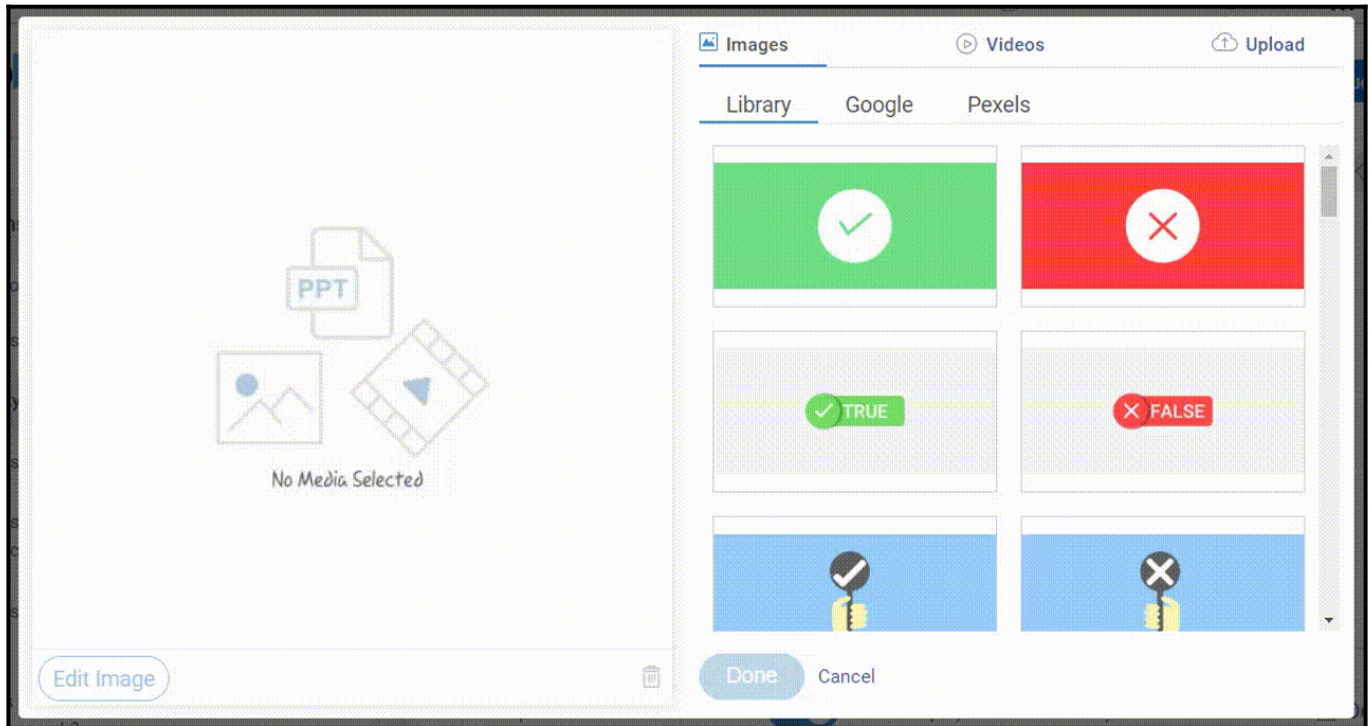

1. Add an image

2. Add a video
3. Upload a media file from your system

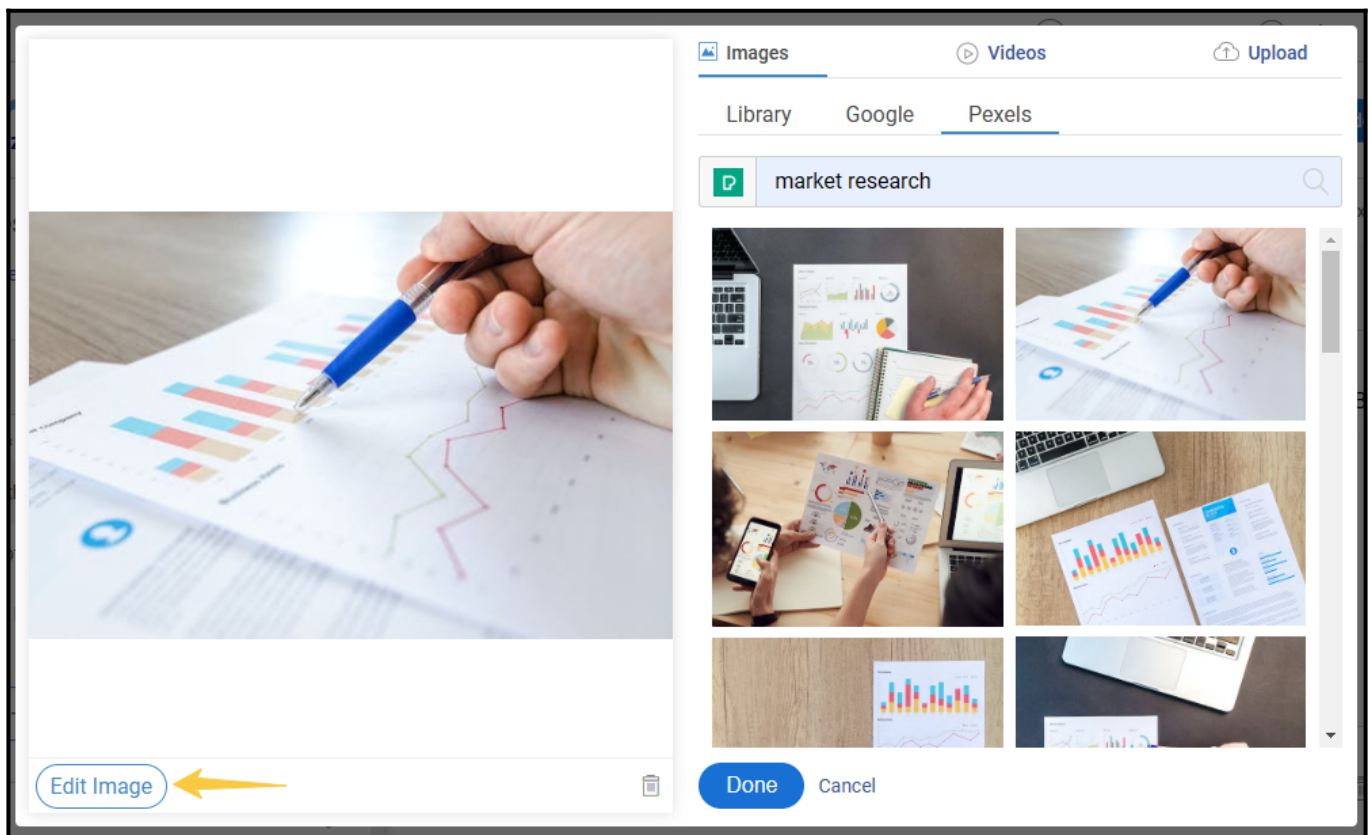

Step 3.1: Under the **Images** tab, you can add an image from the **Library** or search for and select one from **Google/Pexels**. Each of these is explained below.

- **Library:** It contains a set of images provided by ProProfs Quiz Maker. Click the image you want to add to the question, and it will appear enlarged on the left, as shown in the screenshot below.
- **Google:** Search for a suitable image.
- **Pexels:** Select a stock image for your quiz.

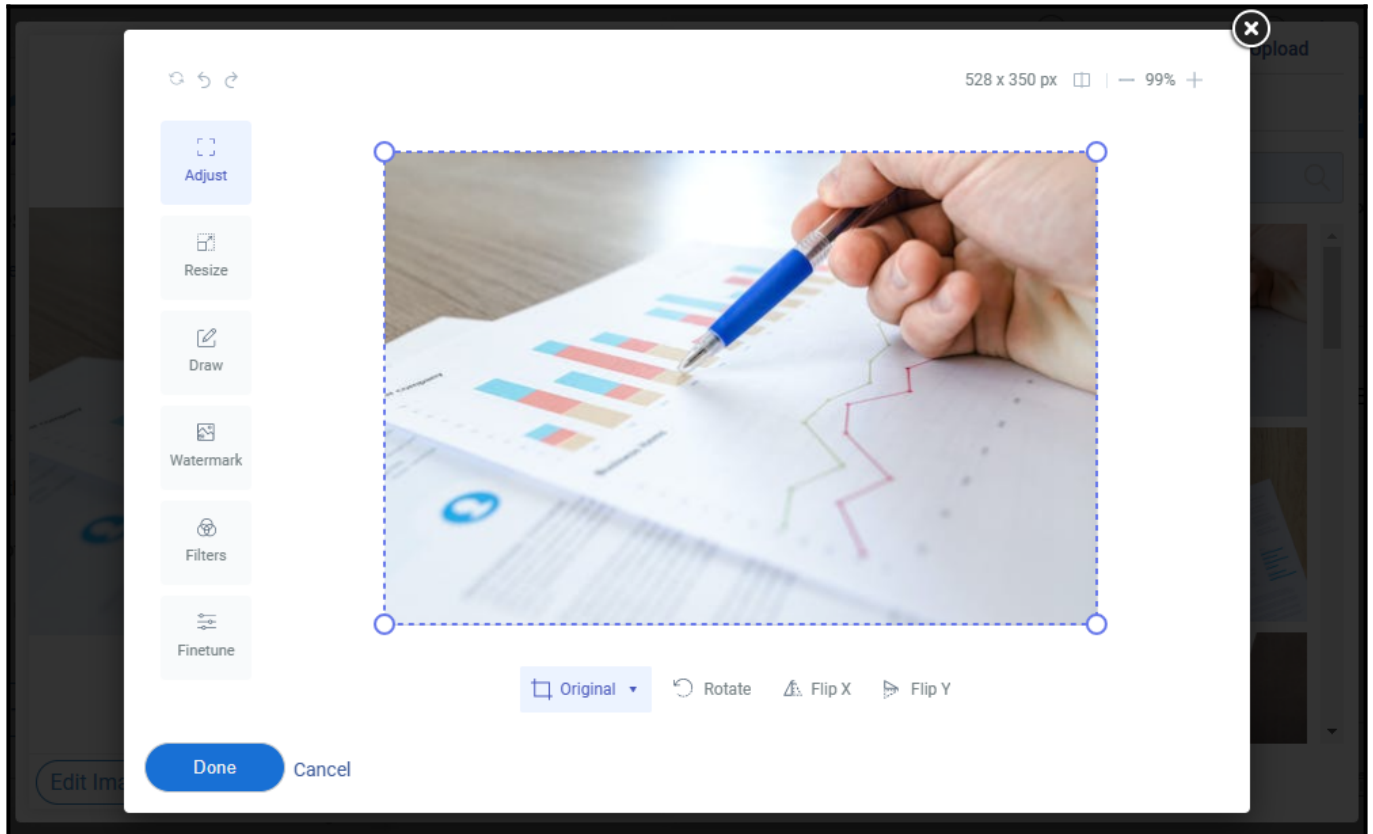

Step 3.2: After you've selected an image you want to add, you can edit its properties (contrast, brightness, etc.) by clicking **Edit Image**. If you want to remove the image, click **Delete**.

After clicking “**Edit Image**,” you can do the following:

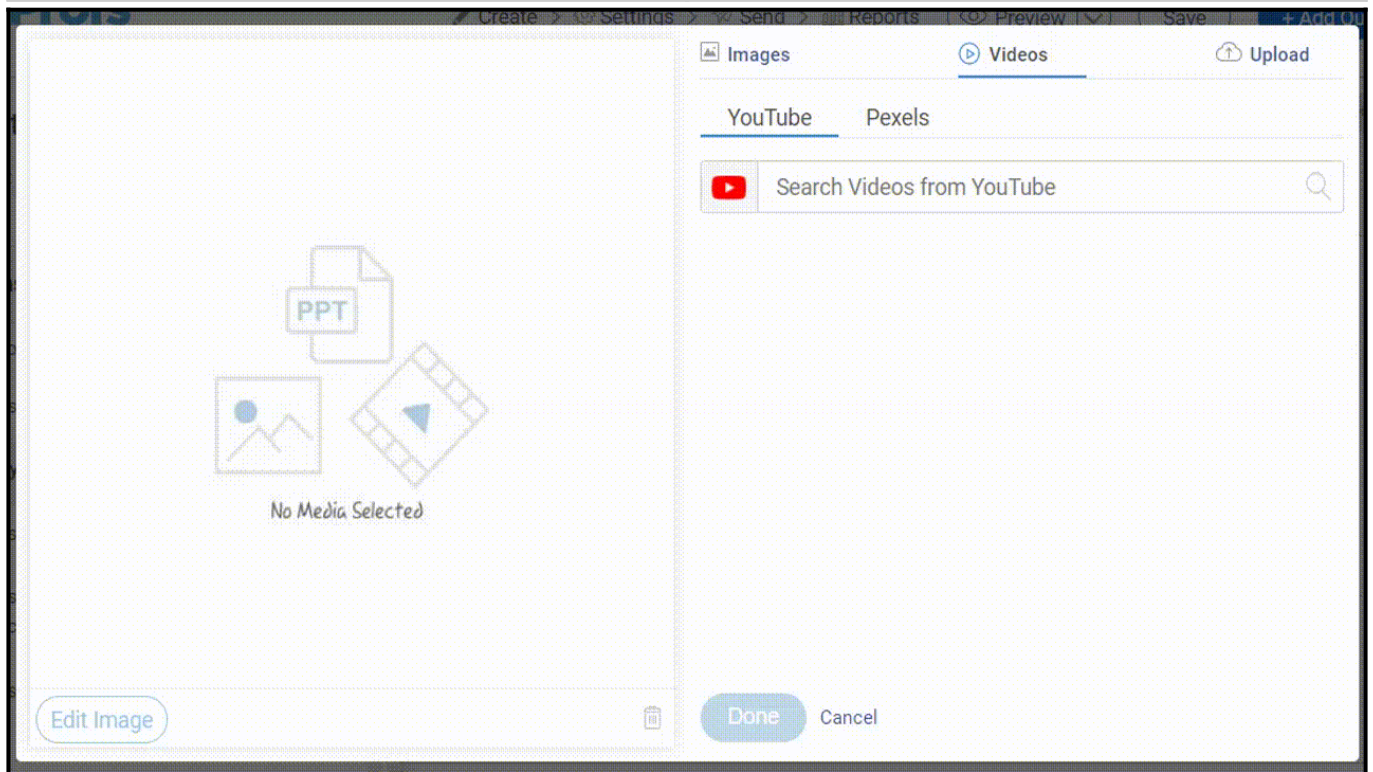

- Flip or rotate the image to suit your requirements

- Resize the image
- Draw over the image
- Add a watermark
- Use a filter
- Finetune the aesthetics

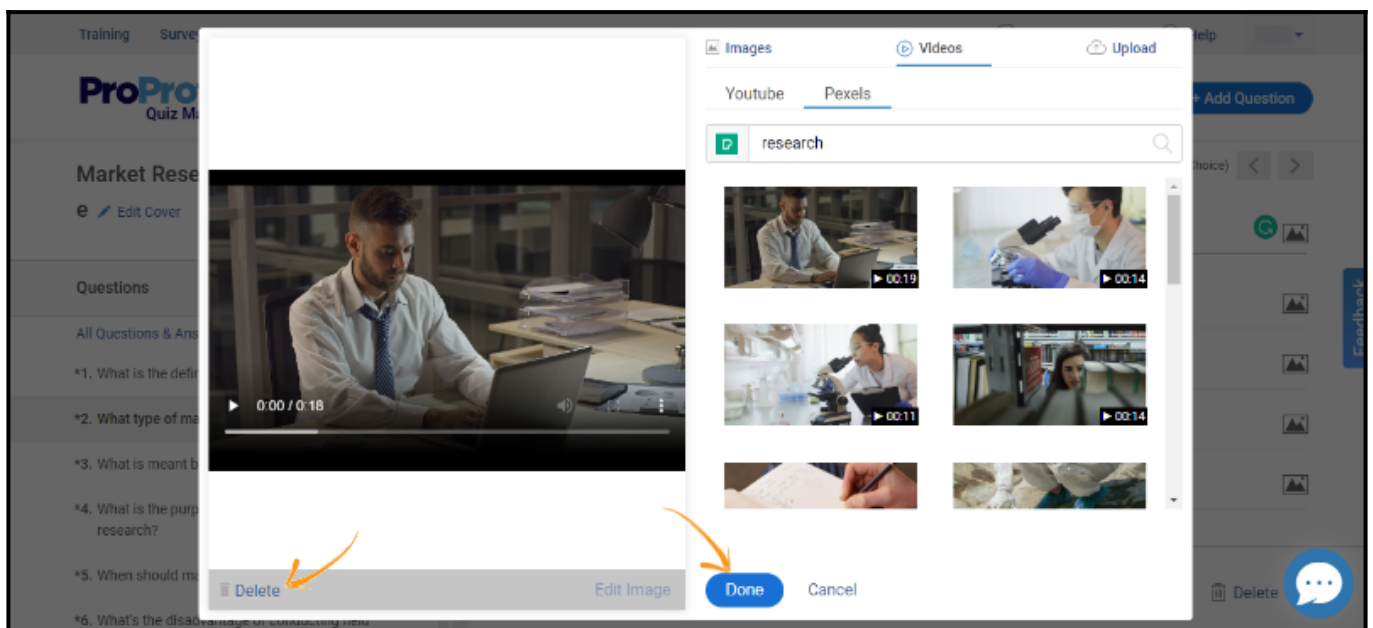

Step 4.3: Add a video from **YouTube** or **Pexels** under the **Videos** tab. Here's how:

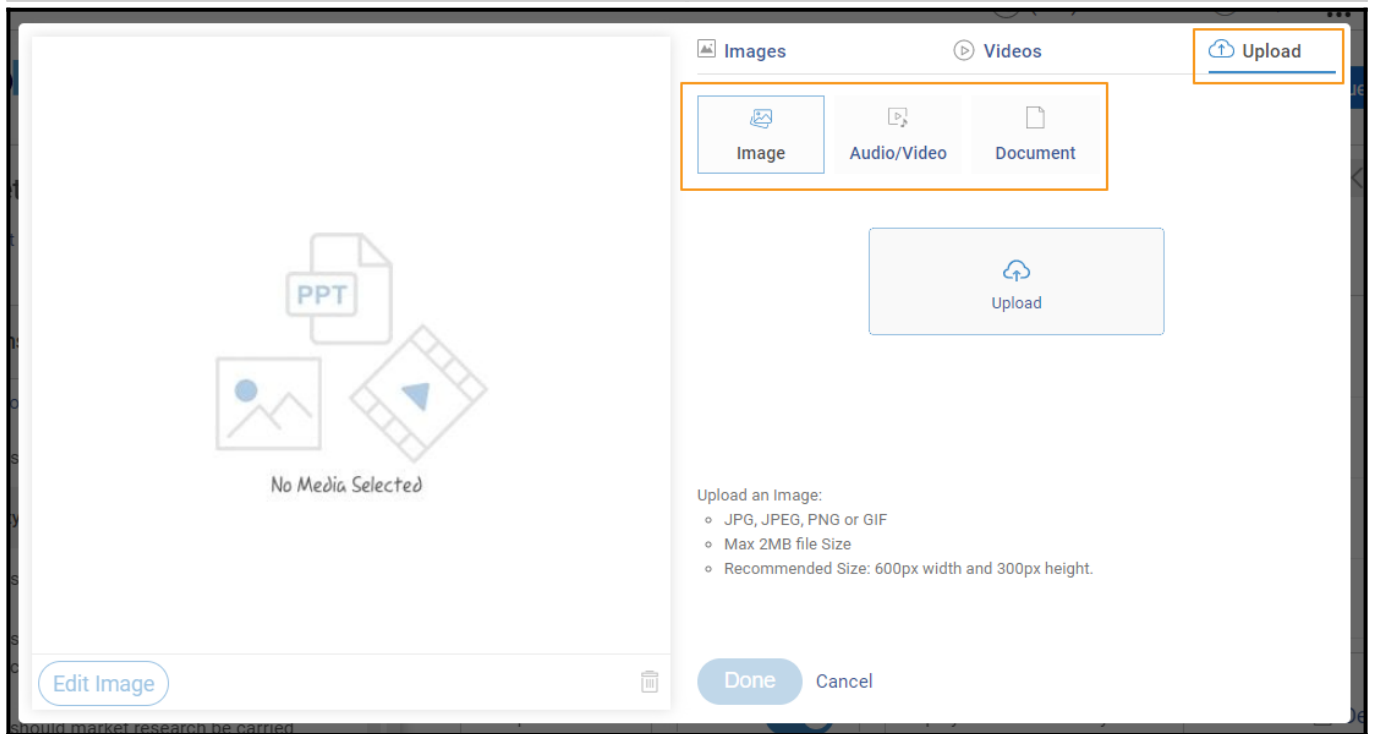

- **YouTube:** Search YouTube videos for any keyword without leaving the quiz.
- **Pexels:** Search Pexels for relevant stock videos without leaving the quiz.

Step 4.4: When you've added the video you want, click **Done**. In case you want to remove the video, click **Delete**.

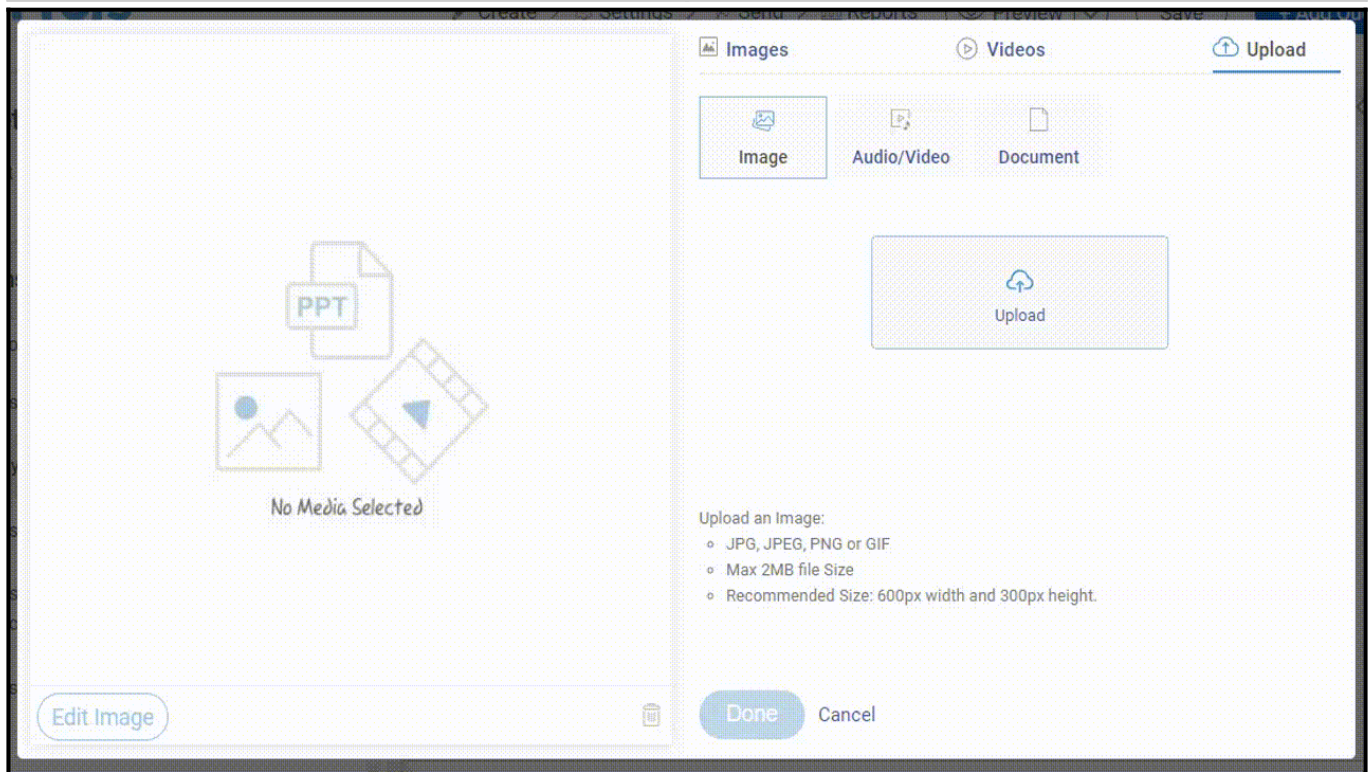

Step 4.5: Under the **Upload** tab, you can upload an **image**, **audio/video**, or a **document** (DOC, PDF, PPT).

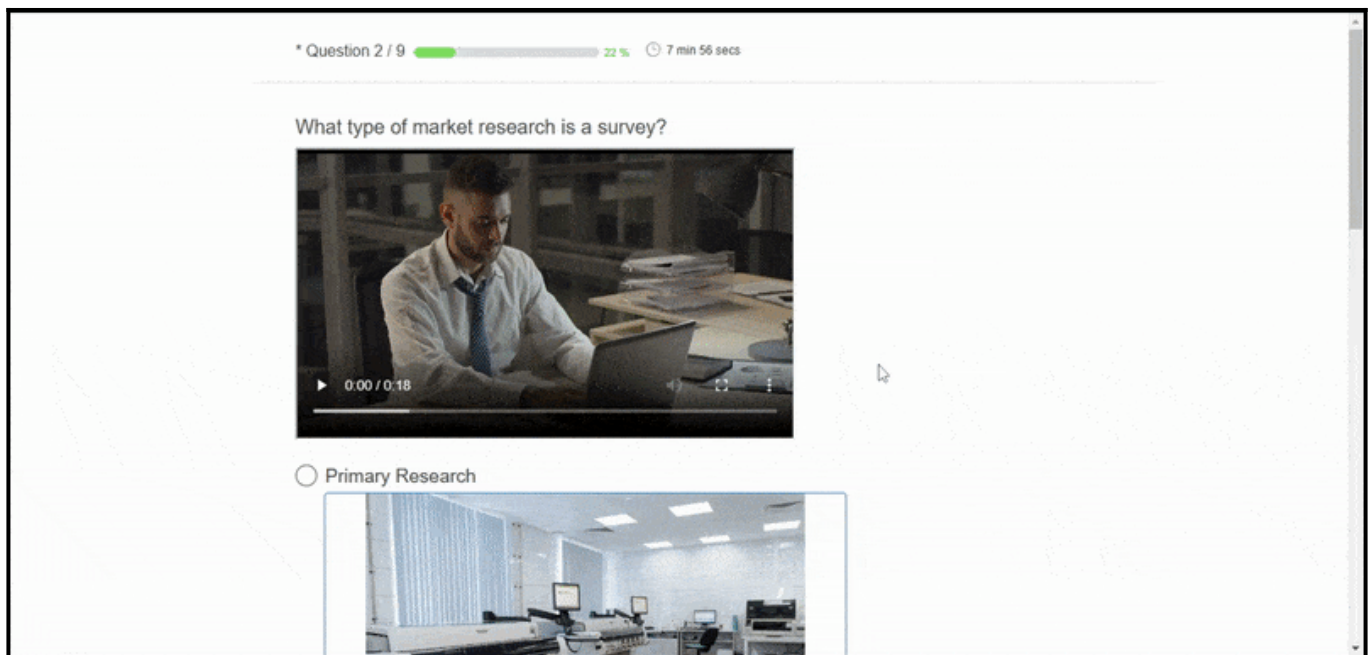

Let's look in detail:

- **Image:** Upload a JPEG, PNG, or GIF image of the recommended dimensions and size.
- **Audio/Video (available only for the question statement):** Upload an audio/video of up to 2 GB in one of the recommended formats.
- **Document (available only for the question statement):** Upload a DOC, PDF, or PPT file of up to 300 MB.

Click **Done** to add.

Step 5: You'll eventually return to the question editing screen. Click **Save** to finish the process of adding multimedia to the question.

That is all about adding media to a quiz question.
