

Overview of Account Settings

Access your [Quiz Maker](#) profile through account settings to make changes. Options include changing your password, updating your account name & email address, changing the time zone, managing alerts, setting up a seller account, adding instructors, viewing invoices, updating credit card details, accessing your API key, and enabling two-factor authentication.

To access your quiz maker account settings, hover over the **profile icon** and select "**My Account.**"

Here you can do the following:

- View your current plan
- View/change your time zone
- Set up a [seller account](#)
- View your [instructors](#)
- Access sensitive information, such as [API key](#), [Notification Token](#), User Private Code
- Change password
- Manage alerts
- Update account name & email address
- Enable [two-factor authentication](#)
