

How to Integrate GetResponse With Quiz Maker

[ProProfs integration with GetResponse](#) helps you capture learner's information (name, email, etc.) and automatically add it as a contact in your GetResponse account. After the integration is completed, you can start populating your GetResponse mailing list by automatically importing details of the learners who take your quiz on ProProfs.

Here's how you can set up the GetResponse integration:

Step 1: To start importing the details of the learners every time they take a quiz, start by selecting the [quiz](#) you want to use and navigate to "Settings."

Step 2: Navigate to the "Security" tab and locate "Tracking Configuration." Enable information to capture, you can also ask your own questions to capture learner's info.
