

How Do Automatic and Manual Grading Work for Your Quizzes?

[ProProfs quiz software](#) saves you time and effort by automatically grading your quizzes and making the results instantly available for you and your learners. For all quizzes with objective questions such as [fill-in-the-blanks](#), [true or false](#), [multiple-choice](#), and so on, the grading is automated. If a quiz consists only of such questions then the quiz report automatically shows details such as:

1. The total score of learners
2. The result - Pass or Fail
3. Total number of correct or incorrect answers
4. Letter Grading such as (A, B, C, D or F) or Pass Percentage

Instructors can also manually grade [essays and other open response questions](#).

ProProfs also offers [various other grading options](#) such as [Manual Grading](#), [Regular Grading](#), [Partial Grading](#), and [Custom Grading](#) for greater flexibility in grading online assessments.

Besides your quizzes being automatically scored, you can also [customize quiz results](#) for your learners. You can choose whether or not to display the score, correct/incorrect responses, customized certificate (that can be printed or shared), and a feedback message. ProProfs Quiz Maker is highly customizable.
