

# How to Find & Use Ready-Made Questions

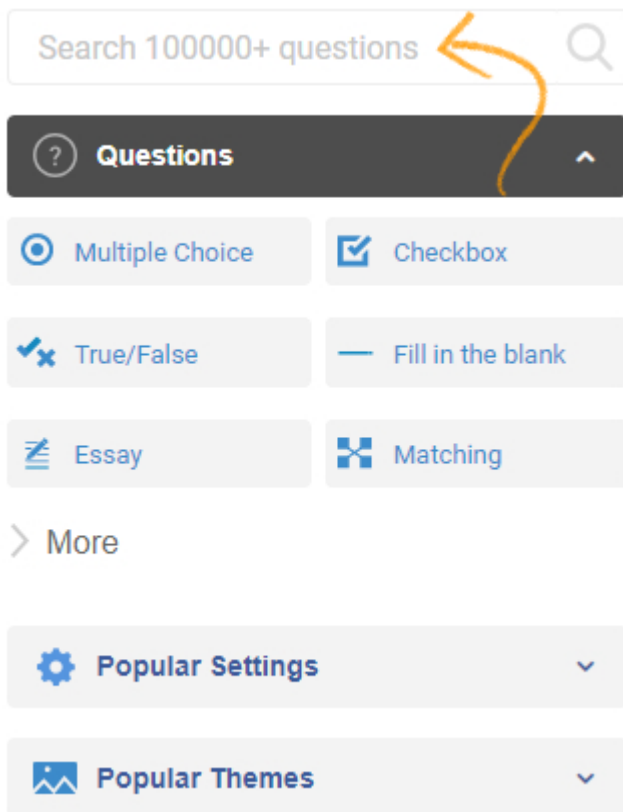

Writing quiz questions can sometimes be hard even for skilled writers. ProProfs offers a solution to this through our "Suggest Me Questions" feature, which provides you instant & relevant questions from our question bank of millions of public questions. You can create quizzes at the spur of the moment by making use of 100,000 of existing templates available in [ProProfs Quiz Library](#).

There are two ways in which you can find ready-to-use questions:

1. Search for questions using the "Suggest Me" function
2. Use an existing [quiz template](#)

Let's look at how you can find quiz questions using the "Suggest Me" feature.

**Step 1.** On the "Manage Questions" page, type your query in the search box.

**Step 2.** Check the boxes to select the desired questions and click on "Add Questions" to add them to your quiz.

### Search All Questions

Search our public library of 1,000,000 questions

ProProfs Library

134 results for Radio 1-10 of 134

**Radio Communications**  
10 Questions  
Basic knowledge of radio communications

Let's look at how you can find quiz questions using an existing template.

**Step 1:** Select type of quiz( scored or personality) from the [Create A Quiz](#) page.

**Step 2:** Type relevant keywords related to the topic you want to find questions in the search box and click "Search."

## Scored Quiz Templates

Customize these quiz templates or start a new quiz from scratch

ProProfs Quiz Maker makes it easy for you to create scored quizzes whenever you need to. You can use one of the templates we have created or start from scratch. You can add your own branding and adjust the questions and answers to create a fully customized experience. Our reporting features make it easy to keep track of your quiz results over time.

**Step 3:** Select a quiz from the listing of related quizzes that show up, and click "Use this quiz" to add the questions to your quiz.

## Search 100,000+ quizzes & assessments

Modify an existing quiz and use as needed!

The screenshot shows the search results for 'Radio'. On the left, there is a search bar with 'Radio' entered and a close button. Below it, it says '134 results for Radio' and '1-10 of 134'. There are three main result cards: 'Radio Communications' (Basic knowledge of radio communications), 'Radio Activity' (Quiz to test your knowledge on RADIO ACTIVITY!), and 'Radio Signals' (Give the corresponding number of the Radio Signal from the descriptions given). On the right, a preview of the 'Radio Activity' quiz is shown. It has a title 'Quiz to test your knowledge on RADIO ACTIVITY!' and a blue button labeled 'Use this Quiz' with an orange arrow pointing to it. Below the button are two questions: '1. What is an isotope?' with options A-E, and '2. What are ALPHA, BETA and GAMMA?' with options A-B.

**Step 4:** Clicking the "Use this quiz" button will add the selected quiz to your dashboard, and the screen will redirect to the [quiz editor](#) where you can rename the quiz, add a description, and edit the questions. When you are done editing the quiz, click "Done" to save the changes.

The screenshot shows the 'Radio Knowledge Test' quiz editor. At the top, there is a search bar with 'Search 100000+ questions' and a search icon. Below it is a 'Questions' dropdown menu with options: Multiple Choice, Checkbox, True/False, Fill in the blank, Essay, and Matching. There are also 'Popular Settings' and 'Popular Themes' sections. On the right, the quiz title 'Radio Knowledge Test' is displayed with the description 'Give the corresponding number of the Radio Signal from the descriptions given'. Below the title, there are two questions: '1. Injury Accident(Squad Dispatched)' and '2. Fire'. Each question has a text input field and a 'Possible Answer(s)' field. The first question has 10 possible answers, and the second has 15. There are buttons for 'Edit Question', 'Fill in the blank', and a trash icon. At the top right, there is a 'Total Questions: 43' and 'View: All Content' dropdown. An orange arrow points to the 'Done' button in the top navigation bar.
