

# How to Create a True or False Quiz

A True/False question is one of the simplest yet most effective ways to gauge the quiz takers' knowledge. In this question type, quiz takers answer a question statement with a true/false, right/wrong, or correct/incorrect response.

In ProProfs Quiz Maker, the true/false question type is available for both the scored and personality quizzes, though it differs slightly between them.

Here's a video showing how to add a true/false question type in your quiz:

## Benefits of true/false questions in a quiz:

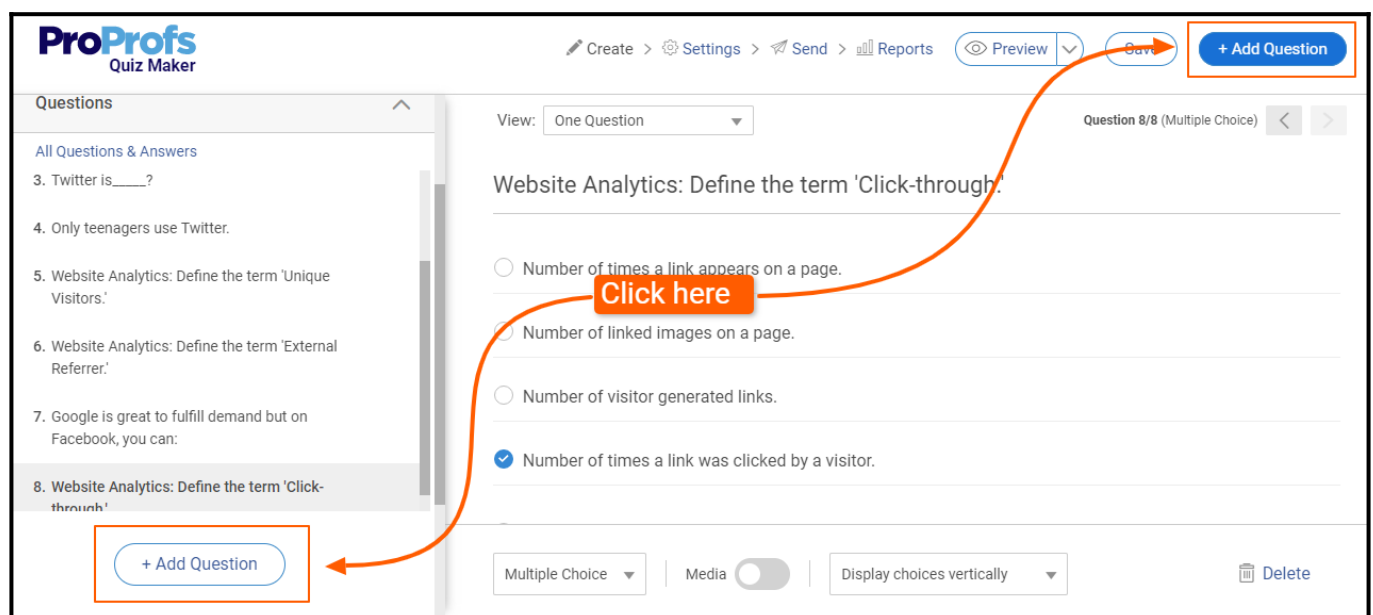

1. Easy to create, edit, and grade
2. The ideal question format for a quick assessment
3. Can be added at the end of a course for self-assessment and feedback

In this article, you'll learn:

1. Adding a True/False Question in a Scored Quiz
2. Adding a True/False Question in a Personality Quiz

## How to Add a True/False Question in a Scored Quiz

**Step 1:** Click “+Add Question.” You can add a question from the sidebar or navigation bar.

**Step 2:** Select the question type as “**True/False**” and click “**Add question**”

**Select a Question Type**

## How to Add a True/False Question in a Personality Quiz

**Step 1:** Click “+Add Question.” You can add a question from the sidebar or navigation bar.

The screenshot shows the ProProfs Quiz Maker interface. At the top, there is a navigation bar with links: Create, Settings, Send, Reports, Preview, Save, and a red-bordered button labeled "+ Add Question". Below the navigation bar, the main area displays a question: "What is your favorite show to watch on TV/Netflix?". The question is currently set to "Multiple Choice" type. On the left sidebar, there is a list of questions and a red-bordered button labeled "+ New Question". An orange arrow points from the "+ Add Question" button in the top navigation bar to the "+ New Question" button in the sidebar. Another orange arrow points from the "+ New Question" button in the sidebar to the "Click here" text on the question image.

**Step 2:** Select the question type as "True/False" and click "Add Question."

### Select a Question Type
