You can easily embed quizzes you create using ProProfs, into your WordPress blog. Here's how a quiz embedded on your website will look.

> **Tip:** To **embed a quiz** on your WordPress blog, you need to **install the ProProfs WordPress Quiz plugin** - a plugin for embedding quizzes, courses, and surveys.

Here's another screenshot showing how an embedded course will look on your website using the ProProfs WordPress Quiz Plugin.
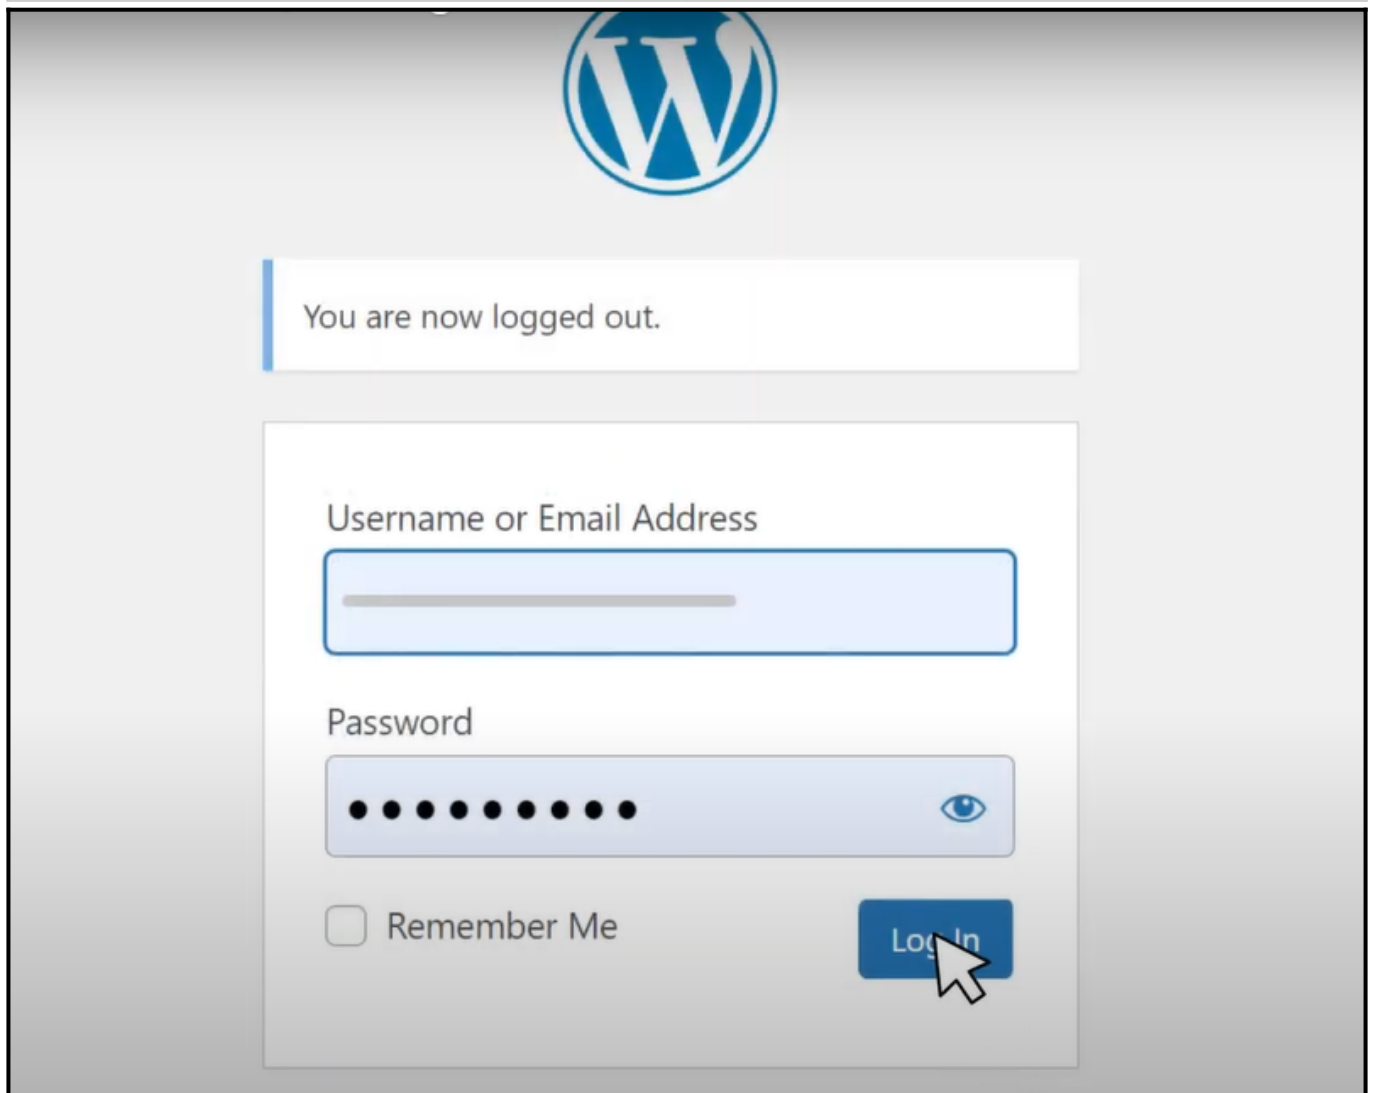

Embedding a quiz into a WordPress website helps you:

- Boost website traffic

- Enhance user engagement
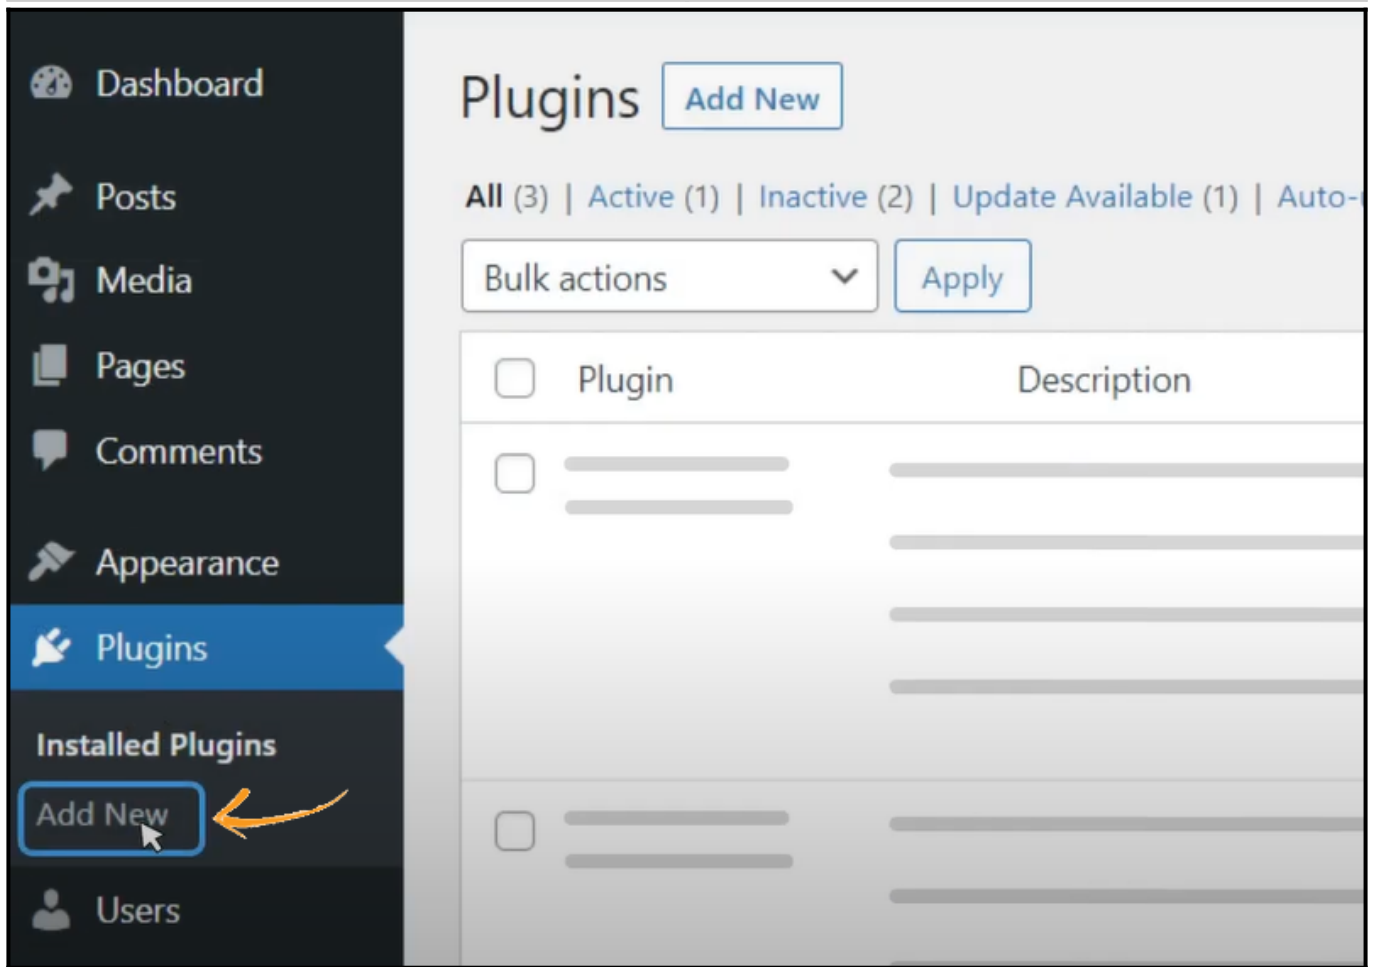

- Generate 10x leads

Embedding a quiz into WordPress consists of two parts. First, you need to install the required plugin and activate it. Second, you will copy-paste the embed code of the quiz.

## Part 1: How to Install the ProProfs WordPress Quiz Plugin

**Step 1:** Log in to your **WordPress** account.

Step 2: Click on **Plugins** on the side panel and select **Add New**.

**Step 3:** Search for the **ProProfs plugin** and click **Install Now**.

**Step 4:** Activate the plugin after installation is complete

Part 2: How to Embed a Quiz

**Step 1:** In your ProProfs Quiz Maker account, click the **Send** icon of the quiz you want to embed.

Step 2: Go to **Embed** and switch to **WordPress.** Copy the **WordPress Plugin ShortCode**.

Here's the shortcode format: [ProProfs src="**PASTE YOUR QUIZ URL HERE**" width="100%" height="500"]. You can place the Quiz URL in the specified place and paste the code.

Step 3: Open the post or page where you want to embed the quiz. In the WordPress block editor, add a `Custom HTML` block and paste the shortcode you copied. You can also adjust the height and width according to your preference.

Save your changes and preview the page.

You have successfully embedded the quiz.

That is all about embedding a quiz into a WordPress website.
