

# How to View the Time Taken per Quiz and Question

Quiz reports provide a comprehensive view of a learner's performance. In ProProfs Quiz Maker, you can view the time a learner takes to complete the quiz and the time spent on each question. You can use this data to analyze the quiz's difficulty level.

**Here's a quiz report showing a learner's time on each question.**

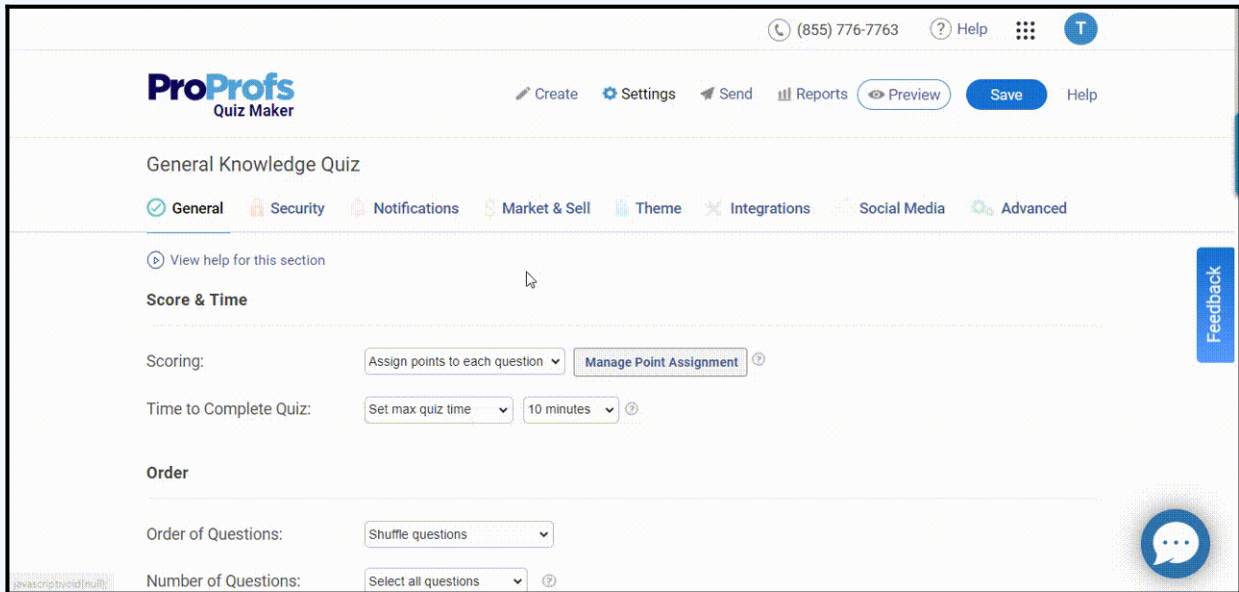

S/N	Question Text	Time Taken
1	Twitter: How would you tag a user in a new tweet?	00:00:08
2	What are the activities that form a part of the marketing mix? These are of...	00:00:08
3	Twitter is_____?	00:00:06
4	Website Analytics: Define the term 'Click-through.'	00:00:12
5	Only teenagers use Twitter.	00:00:04
6	Website Analytics: Define the term 'Unique Visitors.'	00:00:39
7	As a company, if your message is relevant, your LinkedIn status updates can...	00:00:07
8	Website Analytics: Define the term 'External Referrer.'	00:00:07
9	Google is great to fulfill demand but on Facebook, you can:	00:00:06
10	What are people saying on social media is a type of _____ approach?&nb...	00:00:08
11	The right type of Facebook fans you want for your business page are_____.	00:00:05

**Checking time spent on the quiz and individual questions lets you:**

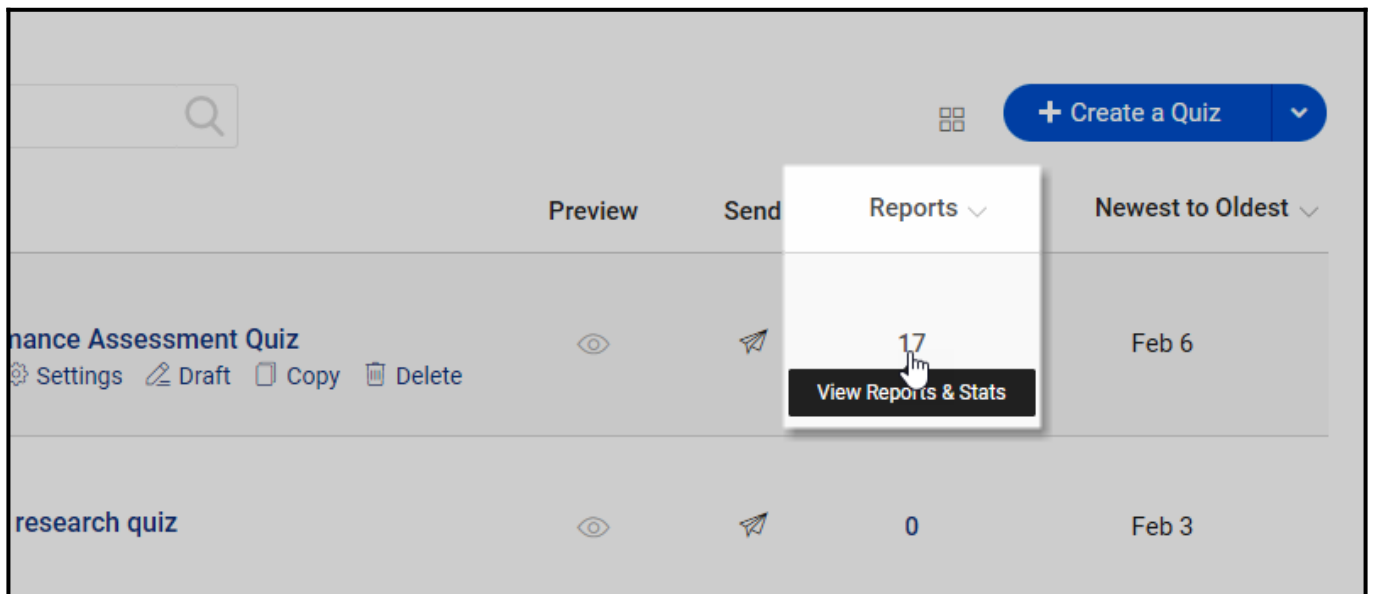

- Measure the learners' understanding of a topic
- Identify any abrupt timings to catch if there was potential cheating during the quiz

## How to View Time Taken Per Question in a Quiz Report

Before beginning, please enable **"One Question Per Page."** You can do this by going to **Settings > General > Presentation > Questions Per Page** and selecting "One question per page" from the dropdown.

**Step 1:** On your dashboard, click the number in the “**Reports**” column to open a quiz report.

**Step 2:** Click the **preview** icon under the **Report** column.
