

How to Create a Timed Quiz

With ProProfs Quiz Maker, you can allot maximum time to complete the whole quiz or set a time for each question. The feature lets you [prevent cheating](#) on your quiz and allows quiz takers to set aside time for taking the quiz.

You can also adjust the date and time settings to [disallow attempts on your quiz after a specific date](#).

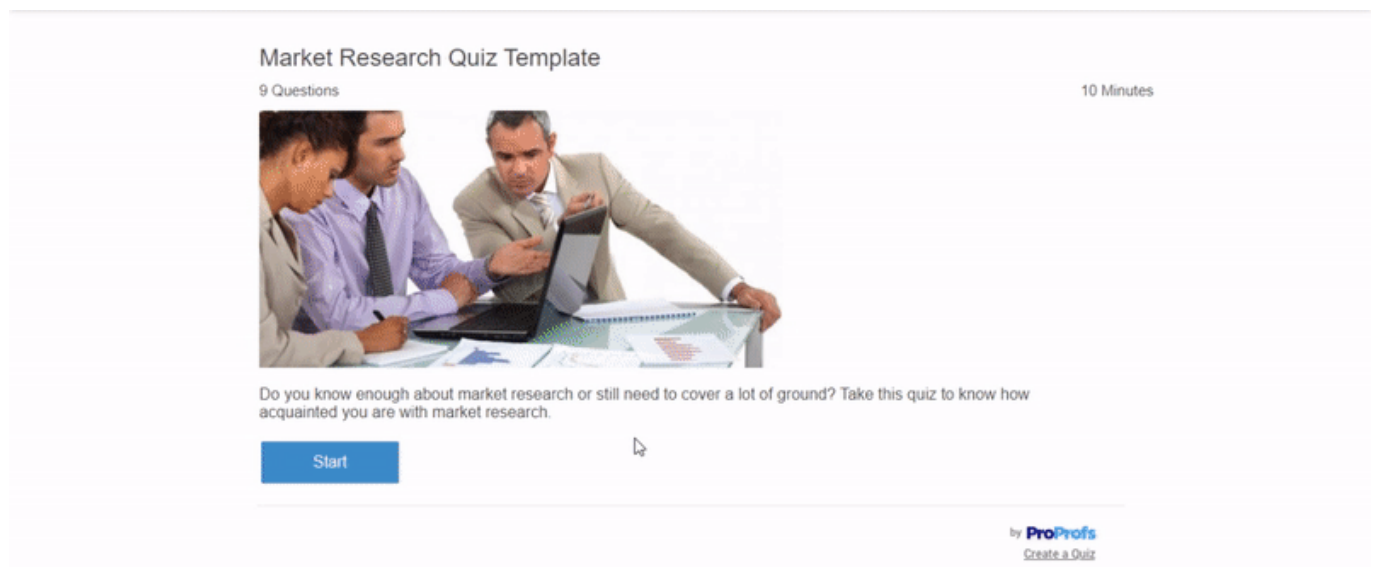

Watch this **quick video** guide to learn about timed quizzes.

Or **continue reading** to learn it step-by-step.

Benefits of creating a timed quiz:

- **Prevent cheating** by not giving quiz takers enough time to find answers from books or the internet
- **Keep the quiz takers informed** about the time spent answering questions

Here's what a timed quiz will look like:

In this article, you'll learn:

1. [How to Set a Maximum Time Limit on Your Quiz](#)
2. [How to Set Time Per Question In A Quiz](#)

[How to Set a Maximum Time Limit on Your Quiz](#)

Step 1: Navigate to the '**Settings**' from the Quiz Maker dashboard.

Step 3: Click 'Save' to secure the changes.

Set time limit for each question

Common time limit Specific time limit

Questions	Time limit
Q. 1: What is the definition of Market Research?	1 Min 30 Sec
Q. 2: What type of market research is a survey?	2 Min 30 Sec
Q. 3: What is meant by desk research?	0 Min 30 Sec
Q. 4: What is the purpose of carrying out market research?	0 Min 15 Sec
Q. 5: When should market research be carried out?	0 Min 0 Sec

Save

Important Points:

1. The quiz should **not be less than 15 seconds** when you want to "Set time per question."
2. "Set time per question" will **only** work for the presentation "One Question per page."

Presentation

Questions Per Page:

One question per page ▼ ⓘ
One question per page
All questions on one page
One tag per page

3. The “**Allow learner to jump to any question**” setting won’t work. You have to **keep it off**.

Reveal answers instantly after each question (Practice Mode) ▼ ⓘ

Allow learner to jump to any question

Yes

No

ⓘ

Ask user to try again if answer is incorrect

Yes

No

ⓘ

That is all about creating a timed quiz.
