

How to Change Quiz Date & Time Settings

You can adjust the date and time settings of your quiz to disallow attempts after a certain date. This will makes the quiz available to your learners only on certain dates and during certain hours. However, this is different from [setting a time limit to your quiz](#), which is a tool to prevent cheating by imposing a time limit that is enough to finish the quiz but not enough to find answers by other means. To learn more, read [how to prevent cheating on your quiz](#).

How to change quiz date and time settings:

Step 1: On your ProProfs Quiz Maker dashboard, go to **Settings >> Advanced**. There, you'll find the following options:

- 1. Quiz Availability** - Set a start date and an expiry date for a quiz, after which the quiz will expire.
- 2. Lock Quiz After an Attempt** - Enabling this feature will restrict the quiz taker from reattempting the quiz for the time period you specify.
