

How Long Do You Store Data?

ProProfs Quiz Maker stores your quizzes indefinitely. As a paying subscriber, your quiz takers' data, including reports and stats, is stored as long as you maintain your subscription. You can download this data and keep it locally at any time.

If you stop your subscription, your account gets locked, but your quizzes are safe with us. So, if you wish to renew your subscription after a gap, you start from where you left off.

Even on the free plan, an unlimited number of quiz takers can continue to take your quizzes, but their reports and stats will not be stored and will not be accessible to the quiz author.
