

How to Save & Resume Quiz Progress

The save and resume feature allows learners to take breaks while taking an [online test](#). With this feature, learners can save their progress on a quiz and resume it later, right from where they left off, without having to start over. This means that learners can return to the quiz at their convenience, whether it's in a day or even a week, and pick up right where they left off.

The screenshot shows a quiz titled "Performance Assessment Quiz" with "12 Questions". It features an image of three people in a meeting. Below the image, a description states: "This quiz is designed to assess the performance of an employee in the digital marketing domain." There is a "Name" field with two input boxes containing "John" and "Smith", and a blue "Start" button. The ProProfs logo and "Create a Quiz" text are in the bottom right corner.

Benefits of the save & resume feature:

- Learners can effectively set their own pace of learning and take lengthy quizzes at their convenience.
- Learners can assimilate information better and finish quizzes more quickly.
- Learners can effectively handle interruptions by saving their progress on a quiz and returning to it later.
