

How to Show Feedback Instantly During a Quiz Rather Than Just at the End of Quiz

With ProProfs, you can provide learners with instant feedback and explanation leading to the correct answer. This helps learners practice and attain mastery over a subject.

Here's how you can enable instant feedback for your quiz: "Settings" page.

Navigate to "Settings" ----> "General Settings" and scroll down to the 'Presentation' section.

Select "One question per page" and 'Practice Mode' to reveal instant feedback to learners. Save your settings to implement the changes.

Presentation

Questions Per Page: One question per page ▼

Reveal answers instantly after each question (Practice Mode) ▼ ⓘ

Allow learner to jump to any question Yes No ⓘ

Ask user to try again if answer is incorrect Yes No ⓘ
