

Does Quiz Maker Require an App for Mobile & Other Devices?

ProProfs quizzes work on all platforms and mobile devices, including smartphones, tablets, or laptops.

ProProfs Quiz Maker uses HTML5 technology, ensuring that the images, videos, PPTs, and PDFs you upload to your **quizzes** run seamlessly across all mobile devices, such as iPhone, iPad, Android, and more.

The ease of use is incredible, as your learners can simply log in to ProProfs from their mobile devices and take the quizzes without downloading or installing any quiz app.

Note: If a quiz is **proctoring-enabled**, it may not be accessible on mobile devices. We  recommend accessing it on a desktop or laptop for the best experience. Thank you for your understanding as we continue to enhance your training & learning experience!
