

How Does Quiz Maker Work With Poor Internet Connection?

[ProProfs Quiz Maker](#) is web-based software (software as a service). This offers the benefit that you and your learner can access your [quizzes](#) from any computer, phone, tablet or any device - anytime, anywhere. The only requirement for this is that the quizzes need to be accessed via a web browser actively connected to the Internet.

Benefits of [web based Quiz Software](#):

1. **Cross device compatibility** ensures your quizzes run across all kinds of mobile devices and platforms such as iPhone, Android etc.
2. **Seamless upgrades of the quiz software**, with no download required, ensuring that you get the most up to date software.
3. **Full backup and automatic recovery of all your data**, with support and maintenance automatically done.
4. **No hardware requirements at your end**, all you need is a gadget connected to the Internet to access your quizzes.
5. **World class service and support, with 24/7 email support**, priority phone support, free updates, bug fixes, product guides, video tutorials & more.
6. **Advanced security features** such as password protection, SSL encryption, individual student/trainee accounts and quiz expiry dates.

Tips for environments with poor internet connection

1. **Avoid adding media:** Do not add videos or large image files. These can make pages slow to load and drastically increase bandwidth requirement.
2. **Display all questions on one page:** Use the settings to set [all questions on one page](#). This loads the entire quiz in one step and connects back on completion. It offers a good experience in case of intermittent internet connection.
3. **Use Save & Pause:** Tell students to press save & pause when they are half way through so data is stored periodically.
4. **Make short tests:** Make series of short [tests](#) as opposed to a single long one, so that students can complete it quickly and easily.
