# How to Embed a Quiz on a Website

ProProfs Quiz Maker allows you to use the embed code to share your quizzes on your website. After you create your quiz, copy the embed code from your Quiz Maker account and paste it into your website source code.

> **NOTE:** Any changes you make in your quiz (such as editing questions etc.) will reflect in the embedded version immediately - without reinstalling the embed code.

ProProfs also offers Single Sign On (SSO) for quiz security, allowing users to instantly authenticate themselves if they're already logged in to your website.

Here's a look at a ProProfs quiz embedded on a website:

If you're a premium member, your audience will not see the ProProfs labeling on your website as shown below:

By embedding quizzes on your website with ProProfs, you can:

- Make your website more attractive and professional.
- Enhance user engagement on your website.
- Boost lead generation, conversions, and sales.

How to Embed a Quiz on Your Website

Step 1: In your ProProfs Quiz Maker dashboard, navigate to the quiz to be shared and click the share icon.

Step 2: In the pop-up overlay, navigate to the Embed tab, and:

1. Select Website.

2. Choose a quiz window size from the available sizes or set a custom size.

3. Copy the embed code.

Step 3: Open the HTML code editor of your website and paste the embed code before the </body> tag.
